Prayer changes everything: What better way to kick-off a prayer request page on your church's website than by acknowledging the power of prayer.

Copy-N-Paste (Insert your church name and details as necessary): "At Hope Church, we believe prayer makes a difference. How can we pray for you this week? Let us know using the form below. NOTE: Any prayer request you share with Hope Church will remain confidential and only will be shared with our lead team for the purposes of prayer."

The Form: Keep your prayer request form short. And limit the number of required fields to as few as possible. When using Nucleus to build your church's website, you can setup a form to automatically email an individual or group within your church. Example: An individual submits a prayer request and that submission is immediately emailed to the leader of the prayer ministry. Click here to learn more about Nucleus.
